

Modeling & Simulation

- ◆ **nLogic** employs the latest physics-based modeling & simulation tools, technologies, and advanced methods to help our clients better understand the complex behavior associated with the design, development, and sustainment of state-of-the-art weapons and support systems. We support constructive, virtual, and hardware-in-the-loop simulation.
- ◆ **nLogic** is known for delivering superior products and services in an affordable manner.

Capabilities:

- ◆ Digital Simulation
- ◆ Hardware-in-the-Loop
- ◆ Distributed Simulation
- ◆ Simulation Verification & Validation
- ◆ Analysis Tool Development
- ◆ Architecture Analysis and Requirements Allocation for System Simulation
- ◆ Simulation-Over-Live Capability
- ◆ High Fidelity Models
- ◆ Discrete Simulation
- ◆ 3D Modeling and Simulation
- ◆ Visualization Products
- ◆ Virtual Task Trainers
